Re: R01 AI24003-04

Dear Dr. Branche:

I am enclosing, for your information, a letter submitted to Dr. R. A. Goldstein concerning the above renewal application, "Mechanisms of Oxidative Toxicity." This application was recently reviewed by your Study Section and given a very poor priority score.

I have reason to believe that the application received a biased evaluation and am asking that it be reviewed again by the Microbial Physiology and Genetics Study Section, which reviewed it intitially. I would appreciate receiving the Summary Statement as early as possible.

I am sorry if my request causes any concern. You must realize, however, that this grant is of more than ordinary interest to me as no other research funds are available to me and my non-tenured position may be jeopardized.

Sincerely yours,

Carl Bernofsky, Ph.D.
Research Professor
